## DATA SOUGHT ON WEATHER OF PACIFIC

Sir Frederic Stupart, Director of Meteorological Service of Canada, Is Inspecting Coast Stations

## SAYS SERVICE MORE EFFICIENT YEARLY

Pays Tribute to Work of Mr. F. Napier Denison at Gonzales Observatory Here

DATA to aid forecasting of weather conditions in Canada is becoming more precise each year. Sir Frederic Stupart, director of the Meteorological Service of Canada, explained to The Colonist last evening.

The director, who is here with Lady Stupart on an inspection of the work of his department, said that the meteorological observations were of increasing importance to the commercial life of the Dominion, particularly in aviation, forest protection and navigation.

Coming to the maintenance of stations in the Arctic Circle and around Hudson's Bay, it was possible to obtain valuable advance weather records. They had been Northern Hemisphere charts in existence in Canada, better than in other countries. These Northern observation stations were of great value in recording weather prospects, as an index of what was to come in the more settled areas.

The records obtained in Canada were being co-ordinated with the records of other countries, and for that purpose he had paid several visits to Europe to learn what progress was being made in other countries.

## TRIBUTE TO LOCAL STATION

Sir Frederic, who has not been in Victoria for eight years, paid a tribute to the work being done by Mr. F. Napier Denison, superintendent of the Gonzales Observatory, in connection with forestry fire warnings.

He pointed out that the stations in British Columbia and the high standard in which Mr. Denison maintained the observations for the Pacific Coast.

He pointed out that the stations in British Columbia and the high standard in which Mr. Denison maintained the observations for the Pacific Coast.

## SUBMARINE LIFE-SAVER IS SUCCESS

"Mechanical Lung" Brings Reporter to Surface in Good Time and Without Injury

## EXPERIMENT MADE BY U.S. NAVY

The following article relates the personal experience of a reporter who was used as a test of the device to enable sailors to escape from wrecked submarines. The article is contributed by our Washington member, The Star.

By A. W. OLLIAM  
Copyright by North American Newspaper Alliance.

WASHINGTON, Aug. 24.—Escaping from a wrecked submarine. If my own test experience can be taken as a criterion, promises to be a much simpler operation in the future than getting out of a falling airplane in a parachute.

Wednesday, using "The Lung," the navy's newest submarine escape apparatus, I came up from a diving lock twenty-two feet down in the Potomac off Dahlgren, Va. Gliding slowly up my life line, and breathing easily with my auxiliary lung, I broke the surface just half a minute after I left the improvised submarine.

Earlier, Lieutenant C. B. Monahan, one of the inventors of "The Lung," and a navy diver, Joseph Elben, slipped out of the same lock 110 feet below the surface and ascended slowly to the surface, suffering no ill effects. Lieutenant Monahan took exactly two minutes to make his ascent, and Elben added forty-five seconds more to his trip.

DESK TEST  
There wasn't enough air aboard the diving boat Crilly for a big test to be made with me, so we decided that twenty or twenty-five feet would do.

I put on a bathing suit and, following Lieutenant Monahan, dove under and into the diving lock.

## MAGNATES MAKE TOURING PARTY

Mr. E. W. Beatty, Sir Charles Gordon and Sir Herbert Holt With Others to Cross Country

MONTREAL, Aug. 24.—In company with a party of Canadian Pacific directors and a number of leading business men, Mr. E. W. Beatty, chairman and president of the Canadian Pacific, will leave Montreal on Saturday morning for an extended tour of the company's Western lines. The party will consist of Mr. E. W. Beatty, Sir Herbert Holt, F. W. Molson, W. M. Tilley, K.C., Col. Henry Cockshutt, W. A. Black, James A. Richardson, Rosa H. McMaster and Sir Charles Gordon, president of the Bank of Montreal. Mr. Beaudry Leman, general manager Bank Canadienne Nationale; Hon. Senator White and Dr. W. W. Chapman and Mr. A. D. MacTavish, vice-president of the Canadian Pacific, will accompany the party as far as Fort William, and Mr. D. C. Coleman, vice-president of Western lines, will accompany them throughout the West.

Winnipeg will be reached on Tuesday, August 28, and on Thursday they will proceed West, traveling through the southern part of the Prairie to Lethbridge and on over the Kettle Valley Railway to Vancouver, arriving there September 4. Both on the way West and on the return journey they will pass over parts of the line not usually visited on the annual tour of inspection, and every opportunity will be taken of seeing the country and gaining a first-hand acquaintance of its economic conditions.

After visiting Victoria, the party will leave Vancouver for the East, September 9. After a visit to Edmonton, four days will be spent in the Peace River country.

## B.C. SHARES CONFERENCE ON TAXATION

National Taxation Association of United States Will Hold Gathering at Seattle Next Week

## HON. W. C. SHELLEY TO GO PERSONALLY

Representatives of Canadian Provinces Will Participate in Deliberations on Taxation Reform

"Be sure and bring plenty of work for a week," said Hon. W. C. Shelley, the Deputy Minister of Finance Mr. E. D. Johnson, as he hurried from his office yesterday afternoon to be rushed to the aerodrome of the British Columbia Airways, en route to Vancouver. The significance of his remark to Mr. Johnson was that for the next week the Minister of Finance and his deputy will have their headquarters in Seattle.

The trip to the American city is not to be one of pleasure. On the contrary, it is far from that. They are to attend the twenty-first annual conference of the National Taxation Association of the United States and Canada on subjects connected with various branches of taxation. The gathering is one that it was felt that the minister and the deputy minister of this province could not afford to miss, as the information to be gained from men of the widest experience would be of invaluable assistance to them both, in meeting problems that have to be faced in British Columbia.

But in the off-hours in the South, Messrs. Shelley and Johnson will devote their time to the discussion of the many matters with which the minister must acquaint himself, and for this reason Mr. Johnson is paying up a great portmanteau which will be crammed to capacity with memoranda and material that will be necessary, in order to allow of the catching up with the situation that presents itself from men of the widest experience would be of invaluable assistance to them both, in meeting problems that have to be faced in British Columbia.

## ZONING BOARD JURISDICTION IS CONTESTED

Appeal of Mr. Edward A. Scott Raises Question of What Power Board Has on Such Matters

HIGHER COURT ACTION HINTED

Asking for a further adjournment of the hearing in Mr. Edward A. Scott's appeal to the Zoning Board yesterday afternoon for permission to erect horse stables on Heyward Avenue, Mr. C. H. O'Halloran, representing the Sisters of St. Ann's Convent, stated that a decision in favor of the application would not mean the end of the case.

He asked for adjournment on the grounds that he did not have his witnesses ready for the hearing. Mr. J. D. MacFarlane, K.C., counsel for Mr. Scott, on hearing the reasons submitted for the adjournment, asked the board if these witnesses were to take oath and give evidence in the usual court manner. The board was unable to give a direct answer to this question and turned to the City Hall to ascertain what he desired in this connection.

He replied that he did not know what the procedure of the board's hearing was and would respectfully ask them to define the procedure. He expressed the opinion at the same time that the board had no jurisdiction over the matter.

Mr. MacFarlane pointed out to the board that his client had made application to the City Council for a building permit, and that the matter had been hanging fire for over two and a half years. His client was anxious to see a settlement of the question as he had bought the property with the desire to build stables on it.

Mr. J. W. Straith, chairman of the board, pointed out that the board had three points to take into consideration, the application, the interest of those directly affected by such an application and the interest of the city as a whole.

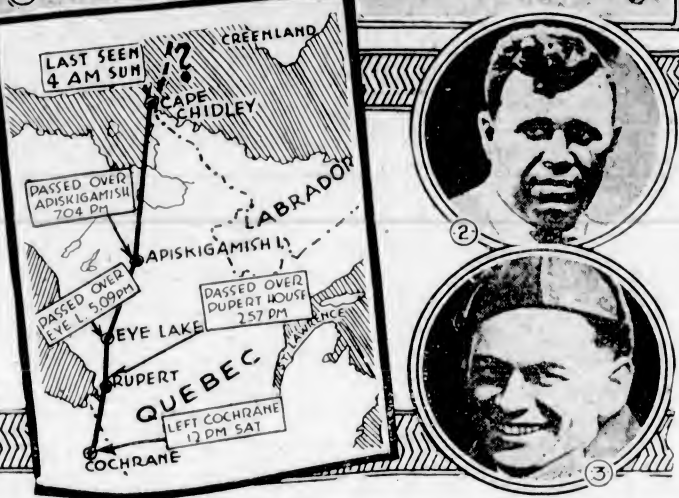

Municipal School Inspector George Deane and Trustee J. L. Beckwith were presented to voice the opposition of the school board to the permit, while Mayor J. C. Penzance was also present to present the view of the council in refusing the application.

The board adjourned the hearing until 2 p.m. September 18. In the meantime advice of counsel for the board would be sought in respect to the procedure of the hearing.

## EXPLOSION KILLS TWO

ASHLAND, Wis., Aug. 24.—Two workmen were killed in an explosion in the jolly punching house of the Dupont Company powder plant at Ashland, ten miles from here, today.

## Hassel Plane and Crew at Cochrane

NOT since 4 a.m., Eastern Standard Time, Sunday, has any word come from Hassel and his companion, Parker Cramer, who left Cochrane at noon Saturday on the second leg of a flight from Rockford, Ill., to Stockholm, Sweden. No. 1 shows Hassel and Cramer surrounded by Cochrane lady friends shortly before the take-off on Saturday. No. 2 in the layout is a map of the territory over which the flyers passed or were due to pass on the journey from Rockford, Ill., to Mount Evans, Greenland. The map also shows points at which messages were received from the plane. No. 3 is a picture of Bert Hassel, the pilot, and No. 4 is that of Parker D. Cramer, his companion.

## Fair Attendance Reaches Figures Assuring Record

Paid admissions at the Willows Exhibition rose to 5,185 yesterday. The figures for the day were:

Friday afternoon — 1928 1927  
Friday afternoon — 2,141 1,185  
Friday evening — 3,044 1,878

Added to a paid admission total of 24,291 for the first four days, the total for the five days is thus 29,476.

## BRITISH CONTRACT MADE WITH CHINA

LONDON, Aug. 24.—The Daily Express tomorrow will say that a syndicate of manufacturers, with interlocking interests in almost every phase of British industry and trade, has been formed to reconstruct the war-ravaged areas of China.

Contracts about to be signed between the syndicate and the Chinese Nationalist Government involve a total capital of £15,000,000, the newspaper will say.

## SEARCH DISCONTINUED

WASHINGTON, Aug. 24.—The coastguard cutter Marion radioed headquarters here tonight that she had abandoned the search for the missing plane, Greater Rockford, because of information that the plane had been seen in the waters near Fiskeris, Greenland.

## In Sunday's Colonist

HOW THE KAISER ABDICATED—A close-up of the "Supreme War Lord" when the spread of mutiny among the reserves stripped the inept Emperor of his power, and left him a chattering, frightened schoolboy. Told by Colonel Nieman, of the Kaiser's personal staff, who was on duty with William during his last days as "All Highest."

WHAT MIGHT HAVE BEEN—Charles Vining recalls the brilliant scheme of Vilhjalmur Stefansson, following the Alaskan success of the United States Government along similar lines, to raise vast herds of meat-producing reindeer in Canada's sub-Arctic wilds.

THE RUM ROVER—"Jim Reading," special agent of the United States Air Mail Service, tells of the "daring capture" of a suppositious aerial hijacker.

## Fast N.Y. Subway Train Filled With Passengers Crashes at Full Speed

One Car Smashes Against Concrete Tunnel Wall—Third Car Telescopes Fourth When Defective Switch Throws End of Train on Wrong Track—Wires Start Fire

Seventeen Killed and 156 Injured; Fifty Physicians Work in Wreckage

NEW YORK, Aug. 24.—Seventeen persons were killed and 156 injured shortly after 5 o'clock tonight when the eighth, ninth and tenth cars in a southbound Rapid Transit express train jumped the track as it was leaving the Times Square station and crashed into the concrete wall of the tunnel. The accident happened at the peak of the evening rush here, at the busiest, most congested station in the New York subway system. The thousands of homeward bound workers, gathered on the platforms of the station, were thrown into an uproar and traffic the entire length of the West Side subway line was brought to a standstill.

After inspecting the wreckage, Commissioner Joseph A. Warren said the accident was caused by a defective switch. He said the wrecked train had been held up in the Times Square station five minutes while repairs were being made to the switch which later caused the accident.

After the repairs, which were thought to have put the switch in working condition, had been completed, the motorman was given the signal to proceed and the train was picking up full speed when the eighth car reached the switch. The front trucks of the car passed safely over the switch. Commissioner Warren said, but the switch opened before the rear truck reached it.

The rear trucks following the other track, swung the car sideways and hurled it against the end of the concrete wall. The heavy steel car, jammed with passengers, was cut in two. The last car of the ten-car train, the police commissioner's investigation showed, had telescoped the rear of the ninth car.

Wires Start Fire  
Although power along the entire West Side subway line was shut off as soon as possible, sparks from the shattered high voltage lines apparently set fire to bits of woodwork and filled the black cavern below the passenger platform with dense smoke.

Out of the smoke, coughing and weeping, came the first of the injured, many of whom had smashed their way through windows and crawled from under twisted wreckage. Within half an hour all the dead and injured had been removed and gangs of subway workers strove to clear the tangled remains of the cars and restore service. Firemen quickly extinguished the fire in the subway.

The crash occurred just above Fortieth Street and was heard almost a block away from the numerous subway entrances in that area. As every emergency detailed to the rescue, the black hole of all but emergency headlights and the flare of the electric torches of firemen and policemen, filled with white-clad doctors and hospital attendants.

HOSPITAL WORK  
At least fifty doctors worked amid the wreckage. First aid work was given on the passenger platform of the Times Square station, an area of almost two city blocks. Policemen guarded every entrance way and rope lines manned by subway officers were thrown about the entire section, to hold back crowds of thousands gathered in the square above the wreck.

The Bellevue Hospital nearby, twenty physicians and fifty nurses worked in the emergency ward as the injured were carried in, clothes torn, hatless, some bloodstained, others unconscious, in the arms of firemen and policemen. The French hospital was so crowded with patients that a call was sent for extra help from other institutions.

## British M.P.'s To Confer Here With Premier

QUEBEC, Aug. 24.—A number of informal conferences in the nine Canadian provinces have been arranged for the delegates of the Empire Parliamentary Association. The first will be with the Montreal Board of Trade on Monday on the subject of Empire marketing. Other conferences are at Winnipeg, Edmonton and Victoria, September 12, on immigration from the point of view of British Columbia, opened by Premier Tominer, Vancouver, September 13, and Regina, September 20.

## French Firm Given Wire Contract by British Postoffice

LONDON, Aug. 24.—Premier Baldwin's appeal to British employers to find jobs for as many unemployed miners as they can fit into their organizations, has been quickly followed by the discovery that the British Postoffice has given a contract for telephone wire, amounting to \$300,000, to a French firm. No official explanation is forthcoming, but it is believed the awarding to the foreign firm was made in an attempt to counteract an alleged endeavor to maintain high prices by what the postoffice has charged is a British products combine.

## FRANKLY SKEPTICAL

CHICAGO, Aug. 24.—Although amateur radio operators in Chicago, Toledo and Brooklyn received messages last night purporting to come from the missing Rockford to Stockholm flyers, radio experts tonight were frankly skeptical that the messages came from Bert Hassel and Parker Cramer, the missing aviators.

While there was no doubt that such a message was sent, skeptics pointed to many reasons for doubting its authenticity.

BISHOP CONSECATED  
JOLIET, Que., Aug. 24.—The third daybishop of Joliet was consecrated and enthroned today in his cathedral church with all the traditional pomp and ceremony of the Roman Catholic Church. His Grace Monsignor Joseph Arthur Papineau has succeeded to the see of the late Bishop Archambault.

## COST OF WATER MAIN \$22,000

PIPE ORDER FOR REPLACEMENT, REPAIR AND EXTENSION WORK ARRIVES

Hillside Main Repairs Will Cost \$10,000—Equivalent Main to Cost \$4,500

Work will be started shortly on the extension of water mains, replacement of mains on Equilmalt Road and Bay Street, and repairs to the Hillside water main. This work will cost \$22,000. It is estimated by the city engineer.

Details in connection with the work will be mapped out as soon as City Engineer F. M. Preston returns from his vacation. He is expected back on Monday.

The cast iron pipe for the work has arrived, thus permitting the laying of a ten-inch main on Equilmalt Road at a cost of \$4,500; the laying of a twelve-inch main on Bay Street at a cost of \$3,000; general extension work amounting to \$2,000 and work at the water works plant costing \$2,800.

The most important work, however, is the completion of repairs to the Hillside main. This will cost in the neighborhood of \$10,000. The cost of piping for the work outlined by the city engineer is \$10,217.

Teacher: "Give me a sentence containing the word 'foolishness' and 'hafter'."

Bright Boy: "The runaway mare wanted to frolic some and no one could halt her."

## Such Is Life!

By J. H. Hirschman

Everything spins along nobly for a time, and then somehow things get all tangled up. But the best of it is, you can always get up and start rolling again.

## NURSES' HOME WILL BE NEXT UNDERTAKING

President of Jubilee Hospital Board Points Out More Accommodation Must Be Made for Nurses

## PRESENT BUILDING MUCH TOO SMALL

The next objective of the directors of the Royal Jubilee Hospital will be to raise funds for the proposed new nurses' home, according to Mr. George McGregor, president of the board. Mr. McGregor pointed out to The Colonist that the incoming class of pupil nurses would seriously increase the strain on their accommodation.

In designing the new building the committee proposed to give greater attention to the amenities of life for the nurses than was possible with the existing building, he explained. With a large number of young women in training, more social and similar facilities were needed for a number of young people, in keeping with the policy adopted in similar institutions elsewhere.

The proposal entails a considerable expenditure, and the hospital directors have refrained from public appeals since the heavy call for the construction of the east wing, which necessitated a definite campaign. Since that time the public here has been subject to drives for social construction projects, and the directors felt that it was necessary to wait until the new wing had been thoroughly tested out, Mr. McGregor explained.

A committee has been appointed for the purpose of taking charge of the preparation of plans and specifications. An architect will be invited to prepare plans upon which an estimate of cost can be intelligently framed. To take care of the ideas to be incorporated, a considerable cost will be entailed in construction.

## Air Board Offers Advanced Course To Flying Clubs

OTTAWA, Aug. 24.—Member of Canadian flying clubs who obtain their private pilot licenses during the present year will be eligible for selection for an advanced course of training under the direction of the Air Board.

At present there are 500 civilians taking instruction in flying through clubs scattered over Canada. Where practicable the advanced work will be carried out at one of the three central stations, Camp Borden, High River and Vancouver. In the case of clubs situated at a great distance from any of these centres, instructors will be loaned by the R.C.A.F. and the training given locally. It was officially announced today.

Later on it is proposed to extend to the larger universities and colleges the privileges of nominating candidates. The Air Board will maintain an organization by which students on graduation from the air school may be placed in touch with commercial openings.

## TAX NOTICES ARE SENT OUT

CITY TREASURY DEPARTMENT WORKS OVERTIME TO GET BILLS TO RATEPAYERS

Nearly \$450,000 Received From Prepaid Taxes—Final Payment Date Is September 29

With the last day for obtaining interest on prepaid taxes August 30 and the interest to be paid in taxes before the penalty is imposed for September 29, ratepayers are coming into the City Hall in a steady stream now.

The city treasurer's staff worked from 7 o'clock to 10 o'clock last night getting out the tax notices. Several sacks of tax notices were mailed out last night. All that remains are the tax notices of those who have made prepayment of their taxes. This will be completed this week, Treasurer Edwin C. Smith announced yesterday.

Up to August 23 a total of \$443,671.85 had been paid on taxes in advance. The interest to be paid on this will amount to \$13,425.54. The total number of persons who have made prepayment of taxes is 2,799.

It is expected that the number of people prepaying taxes will be in excess of last year, when the accounts are made up at the end of this month. The most encouraging feature of the prepayment of taxes this year has been the increased number of small property holders who are making payment, Mr. Smith stated.

## SCHOOL BY-LAW TO BE DRAFTED

ALL EXTRA ACCOMMODATION FOR HIGH SCHOOL STUDENTS WILL BE USED

Technical School Is Only Economic Solution to Problem, States School Inspector

Ratepayers of Victoria will be asked to "vote upon" a newly drafted Technical School By-Law at the forthcoming election, it was learned at the City Hall yesterday. Municipal Inspector George Dean pointed out that with the increased attendance at the Victoria High School, with the commencement of the 1929-30 term, all available space would be taken. All extra facilities that might be put to the use of High School students will have been taken up, so that the citizens, and more particularly the School Board, will have to wrestle with the problem of finding more accommodation for pupils next year.

It was pointed out by Mr. Dean that the grants toward technical schools, made by the Dominion Government to the municipalities through the Provincial Government, expired on March 31, 1929, and that if Victoria was to take advantage of getting forty per cent of the initial cost of a new school paid out of these grants, action would have to be taken before that time.

In considering the question of providing additional accommodation for High School students the interests of the city from a financial point of view would have to be considered, and the grants toward technical schools made by the province, with the assistance of the Dominion Government, was the only relief from the monetary aspect that the city could look forward to.

With the erection of a technical school the congestion at the present High School would be relieved, as 600 students could be transferred from the High School to the technical school as soon as the building was completed. The two schools, Victoria would have sufficient accommodation to take care of the natural increase for ten or fifteen years.

When discussing with the Saanich school trustees the question of raising the High School fee to \$100 for Saanich High School students, city school trustees pointed out that the defeat of the technical school by the fact was undoubtedly due to the fact that Saanich had not been paying its full share of the High School costs. The trustees expressed the opinion at that time that if the fees were placed upon a fairer basis the ratepayers would feel more disposed to support a by-law for a technical school.

## CITY MENTIONED IN PUBLICATION

Entitled the "Northern Pacific Coast Vacation Land," the Northern Pacific Railway has issued a prospectus-illustrated thirty-two-page booklet on tourist attractions in Northern Idaho, Oregon, Washington and Victoria.

Of the city, the booklet says: "The quaint old city of Victoria, dreaming over her blue bay, lies with gulls circling against the crimson of a sunset sky above boats at anchor. There are streets in Victoria with sidewalks on one side only, as in England and hedges of hawthorne and laurel. Life is unburied there and there is time to drink in all the beauty of the world about one."

The publication contains a large view of Victoria taken from the Parliament Buildings, including part of the harbor and business district.

## STOCK JUDGING RESULTS GIVEN

Premier S. F. Tolmie Announces Prize-winners at Exhibition at Stockbreeders' Fete

At the conclusion of the stockbreeders' luncheon held yesterday at the Fair grounds, Premier S. F. Tolmie announced the winners of the stock judging competitions at the Willows Exhibition, which were held under the supervision of Dr. A. Knight.

The results of the stock judging follow:

Over twenty-one years—C. McKnight, 197 points; W. Darnborough, 187 points; Alex. Lamond, 178 points; F. W. Fisher, 175 points; L. Thomas, 70 points; James Bryce, 30 points.

Over eighteen years and under twenty-one—Duncan McKenzie, 188 points; Swanson, 165 points; John Fleming, 163 points; William Child, 162 points; Earl Brinton, 160 points; Edder Fox, 132 points.

Under eighteen years—Earl Brown, 180 points; William Baker, 178 points; Annie Turner, 158 points; Rodney Brown, 136 points; Murray Turner, 70 points.

## EXCURSION TO CITY ON MONDAY

Seattle Musicians' Ass'n Will Conduct Trip to Victoria—Dance at Crystal Garden at Night

One thousand Americans will invade Victoria on Monday next on an excursion visit, which is being conducted from Seattle to this port by the Seattle Musicians' Association.

The Edmonds ferry B.S. City of Victoria will be the excursion steamer, and will leave Edmonds, Wash., Monday morning at 8 o'clock and will reach here at noon. Most of the visitors will remain in Victoria all day, and return to the American side via the City of Victoria at 1 a.m. Tuesday morning. During Monday afternoon, the majority of the excursionists will take automobile trips about the city and surrounding districts, and visits will

be paid to the Observatory and Butchart's Gardens.

The Crystal Garden will be taken over for dancing on Monday night by the visitors, and the Seattle musicians are bringing their best orchestra over to provide the music. Victorians are invited to participate in this function.

The excursionists will be met here by local musician leaders, who are completing arrangements for the entertainment of the Americans during their sojourn in the Capital City.

"Did you hear that Jack and Mabel are engaged?"

"Then Jack has finally succeeded?"

"No; he's succumbed."

## LENNIE REPORT FINDS BRIBERY CHARGE UNTRUE

But Vancouver Police Force Is Declared to Have Been Demoralized — Various Irregularities

### RECOMMENDATIONS FOR REFORM MADE

VANCOUVER, Aug. 24.—"It should be here stated that the force has recently been demoralized for many reasons, the chief of which appears to be the fact that the mayor of the city was elected by a majority of 8,000 votes on a policy which has been termed 'an open policy'." stated Commissioner R. B. Lennie in his report on the recent police inquiry, which was submitted to the City Council at 10 a.m. The commissioner summarizes evidence of bribery by Chinese gamblers, concluding as follows:

"I have since read the evidence and have gone over exhibits in this connection in minute detail, and I am forced to the conclusion that whatever disposition may have been made of any so-called protection money, as among the Chinese themselves, none of it ever reached any members of the police force or the mayor of the city."

Referring to the dry squad, he said: "I have not dealt with a number of matters that were considered, and upon which extensive evidence was taken in the course of the inquiry, which practically settled themselves as the evidence proceeded, relating largely to the activities of the dry squad, which appears to have functioned very satisfactorily with the very difficult problems they encountered in the course of the duties imposed upon them."

Referring to the sale of mining stocks to members of the police force by Police Commissioner T. W. Fletcher, the commissioner calls it "an error," and goes on: "As a matter of ethics, I think it is quite clear that superior officials in public positions should keep themselves entirely free to act unfettered by any direct dealings of a financial nature with their subordinates, and it is well that this view should be made public and confirmed."

**WHAT IS WRONG?**  
"A summary of some of the evidence shows that in addition to the mayor's so-called open policy which seems to be at the 'root' of the trouble, there are many other reasons contributing to the demoralization and inefficiency of the force, and I call particular attention to the following:

"1.—The reduction of charges by officers without consulting the police court prosecutor or obtaining the consent of the police magistrate.  
"2.—The withdrawal of charges when the arresting officers were convinced that they had sufficient evidence to convict without consulting the police court prosecutor or obtaining the consent of the police magistrate.

"3.—The failure of the chief of police to report to the police commission instances of the mayor giving instructions in regard to law enforcement which are not reported to the police commission from within the police force, and the failure of the chief of police to report to the police commission instances of the mayor giving instructions in regard to law enforcement which are not reported to the police commission from within the police force, and the failure of the chief of police to report to the police commission instances of the mayor giving instructions in regard to law enforcement which are not reported to the police commission from within the police force."

"4.—The acceptance of bribes when the arresting officers were convinced that they had sufficient evidence to convict without consulting the police court prosecutor or obtaining the consent of the police magistrate.  
"5.—The failure of the chief of police to report to the police commission instances of the mayor giving instructions in regard to law enforcement which are not reported to the police commission from within the police force, and the failure of the chief of police to report to the police commission instances of the mayor giving instructions in regard to law enforcement which are not reported to the police commission from within the police force."

"6.—The failure of the chief of police to report to the police commission instances of the mayor giving instructions in regard to law enforcement which are not reported to the police commission from within the police force, and the failure of the chief of police to report to the police commission instances of the mayor giving instructions in regard to law enforcement which are not reported to the police commission from within the police force."

"7.—The preparation of lists of places that were to be allowed to operate without obtaining the approval of the police commission and receiving its instructions in regard to their control.  
"8.—An undemanded police force to cope with the increased population of the city and its consequent increased duties.

"9.—The salaries of the officers as compared with the salaries of similar officers in other cities similarly situated."

**RECOMMENDATIONS**  
The commissioner recommends that the board of police commissioners should consist of a judge of the Supreme Court, the police magistrate, the mayor and at least two outstanding citizens. As an alternative he recommends that the commission should be elected in the same manner as the school board or park board. The purpose in either case, he stated, would be to remove the administration and enforcement of law from other municipal activities.

He believes that all cases of attempted bribery should be reported to the chief of police in writing, stating the circumstances for submission to the police court prosecutor for instructions for the police commission to take such action as may seem desirable. He quotes a section of the Criminal Code covering corruption of police officers, and urges that the greatest publicity should be given to all instances of bribery or attempted bribery, and a prosecution should follow where there is the slightest opportunity of securing a conviction. This action, he states, would give the public and particularly underworld characters and foreigners a definite understanding that their methods of attempting to subvert the law will not be tolerated and would be followed by real sentences.

**REDUCTIONS OF CHARGES**  
Mr. Lennie refers to the Wing Ching case, where a charge of possession of narcotics was reduced to smoking opium. He described this as "a glaring case of reduction by a police officer."

This instance is quoted to show the danger of according to any

## A Gift to Dominion

This fine painting of the late Earl of Minto, former Governor-General, was recently received at Ottawa, a gift to the Canadian Government by the Dowager Countess of Minto.

police officer the power of altering an information once it has been laid, says the commissioner. Such instances gave rise to much criticism at the inquiry, and in the opinion of the commissioner it was amply justified.

"This is so important that I think the police commission, in conjunction with the police magistrate and police court prosecutor, should define by rule or regulation for the benefit of police officers what discretion, if any, they are to be permitted in reducing charges against persons."

**OTHER RECOMMENDATIONS**  
Other recommendations are: That the onus of proof be shifted upon the accused where a charge of living off the avails of prostitution has been laid.  
That foreigners convicted of keeping disorderly houses be deported and the immigration laws amended to that effect.

That jurisdiction should be given to magistrates to deal summarily with charges of bribery.  
That commitments by police magistrates for sentences imposed against keepers or inmates of disorderly houses should be recognized and respected by the provincial jailers.

**REFERRED TO COMMISSION**  
Vancouver, Aug. 24.—After listening to the reading of the Lennie report for more than two hours, members of the city council decided to refer it to the police commission for action.  
The decision was not reached without a great deal of discussion, however, for a number of the aldermen were opposed.

## MAYORS ATTEND CIVIC BANQUET

Vancouver Council Tenders Dinner in Honor of Rear-Admiral Fuller and Visiting Officers

Mayor J. Carl Pendray returned to the city yesterday afternoon from Victoria by boat yesterday afternoon. He was attending a civic banquet given in honor of the visit of Rear-Admiral Sir Cyril T. M. Fuller, commander of H.M.S. Despatch, and the captain and officers of the Despatch, Durban and H.M.C.S. Vancouver.

Coming here by monoplane, Mayor Frank Edwards went on to Vancouver Thursday evening with Mayor Pendray, by plane, to attend the banquet.

The Seattle mayor returned to Victoria by boat yesterday afternoon and will spend two days in this city before going back to Seattle.

## Obituary

**HARRISON**—There passed away on Thursday evening at the Royal Jubilee Hospital, Captain Albert Edward Harrison, aged fifty-eight years, of 1272 Balmoral Road. Captain Harrison had resided in Victoria for seven years, coming here from Calgary, Alta. He is mourned by his widow, one brother, Harold L. Vancouver, and his father and brother in England. He was a veteran of the South African War, in which he served with the Strathcona Horse, and also of the Great War, having seen active service with the 16th Battalion, C.E.F. He was also a member of the Victoria Lodge A.F. & A.M. of Calgary. The funeral will take place on Monday afternoon from McCall Brothers' Funeral Home to St. John's Church, where services will be held at 3 o'clock. Rev. F. A. P. Chadwick will conduct the services. Interment will be made in Royal Oak Burial Park.

**WILLIAMS**—The funeral of Mrs. Annie Williams was held on Friday morning from McCall Brothers' Funeral Home to St. Barnabas' Church, where services were held. Ven. Archdeacon Lock officiating. Interment was made in Royal Oak Burial Park with the following friends as pallbearers: Messrs. C. Shaw, G. Shaw, W. E. Loe and F. G. Quirk.

**ANOTHER DIPLOMAT**  
OTTAWA, Aug. 24.—Official announcement of the appointment of Jean Desy, K.C., as consul for the Canadian Legation at Paris, was made this morning. Mr. Desy, who has been consul for the Department of External Affairs since 1925, will leave on September 15 for Europe.

## COLD STORAGE PLANT TO BE ERECTED SOON

First Week in September to See Undertaking Started—Site Being Cleared for Substation

### AUGUST PERMITS OVER \$100,000

Construction on the Victoria Cold Storage and Terminal Warehouse, Limited, new \$600,000 plant will be started the first week in September. Major J. Carl Pendray was advised yesterday. Tenders for the erection of the plant will be called as soon as Mr. H. G. Brown, promoter of the project, arrives in Victoria.

Incorporation papers have been taken out by the company, which gives it capitalization at \$2,000,000. This company was formed and the erection of the plant induced to establish here by the guaranteeing of 7 per cent net earnings on \$500,000 for a period of ten years by the citizens of Victoria.

Tenders have been called for the erection of the B.C.E.R. Company's new substation to be erected on the corner of Government and Bay Streets. Work on clearing the property has been undertaken.

With two important contracts going through this year and the steady increase in the number of homes being erected in Victoria the building permits are expected to reach the \$2,000,000 mark by the end of the year.

### PERMITS WERE TAKEN OUT AT THE CITY HALL YESTERDAY FOR TWO NEW HOMES

One for Mr. H. Davis, to be erected at 1281 Craigflower Road, will be a two-story home having eight rooms. It will cost approximately \$6,000. The other is for Miss Farthing, of 284 Marfield Street. It will be a six-roomed bungalow and will cost \$2,000. These two permits boost the total for the month to over \$100,000, as compared with \$41,000 for the whole of August, 1927.

## FINE DISPLAY OF HORSES AT FAIR

Dr. A. M. McKay, Judge of Light Horses Class, Says Entries Are of High Quality

"The Victoria Exhibition is second to none, as far as the classes of horses exhibited are concerned," declared Dr. A. M. McKay, of Calgary, Alberta, yesterday. Dr. McKay is officiating as judge of the light horses and thoroughbred classes at the Fair here.

Dr. McKay stated that the classes were well filled, and the horses were of high quality, including some of the best animals that have been competing in Western Canada. A number of the horses exhibited were of outstanding merit, he said.

The majority of the horses competing were Vancouver Island stock, although there were also entries from the Province of Alberta, and points in the United States.

"The judging of all horses has taken place at the horse show, which has been well attended. Saturday night will be the final show, and I would respectfully urge patrons of the exhibition to visit the horse show and see the splendid standard of horses that are performing in the various items of the programme," he said.

Dr. McKay commented upon the expressions of many citizens in regard to the fine class of horses and their exhibition in the horse show arena.

"I consider the present Fair at Victoria one of the best agricultural exhibitions at which I have judged in Western Canada," said Dr. McKay, who has been a judge for many years at fairs in the three prairie provinces and British Columbia.

## JUDGING HAS BEEN CONCLUDED

Judging in the rabbit classes has been completed at the Willows. Additional awards are:

Any breed of rabbit shown by boy or girl under 16 years of age:  
Buck, 3-6-1, A. Nightingale; 2, C. de Lure Jr.; 3, Beatrice Michie. Senior-1, W. Colvin; 2, V. Brown. Doe, 3-6-1, G. & J. Jack; 2, Daphne Schwartz; 3, C. de Lure Jr.; 4, W. Hooper; 5, V. Brown. Senior-1, J. Symes; 2, B. Eccles.

## JUDGING ENDS IN POULTRY CLASSES

Judging in the poultry classes at the Exhibition has been completed. Additional awards are:

**SWEETSTAKES**

## Viscount Haldane's Grave Desecrated

GLENGAILES, Scotland, Aug. 24.—The grave of Viscount Haldane, British statesman, who was buried here, was found desecrated this morning, with indications that an attempt had been made to pry open the coffin.

While asleep beside the opened grave was a man who stopped the funeral procession of the former Cabinet minister in High Street yesterday. He was found in the cemetery yesterday, and he repeated this in the graveyard today.

The police said that the man had admitted opening the grave with the tools left by a grave digger.

Addressing a crowded meeting at the Queen's Hall, London, recently, Dr. Annie Besant, now eighty-one years old, spoke for an hour and a half without notes, and at times aroused her hearers to enthusiasm.

A New York Tribune subscriber, who many years ago discontinued his subscription because of Horace Greeley's opposition to William H. Seward, angrily wrote that his only regret in parting was that he was under the necessity of losing a three-cent stamp to do so. Greeley printed the letter with his reply: "The painful regret expressed in yours of the 19th inst. excites my sympathies. I enclose you a three-cent stamp to replace that which you lost and deplored and remain, yours sincerely."

## Prominent Firms Make Fine Showing at Fair

Splendid Displays Are Staged by Weiler's and David Spencer Limited at Manufacturers' Building in Connection With Exhibition

In many respects the most decorative exhibit in the Manufacturers' Building at the Provincial Exhibition is the array of high grade furniture by Messrs. Weiler's, which in the right corner from the entrance has attracted the admiring comments of many during the show.

The whole exhibit is arranged against a background with stiplé effect of opal shade which is a remarkable example of interior decoration. In this are displayed in separate sections representing the different rooms of a house some delightful furnishing suggestions. For the bedroom is a suite of walnut inlaid with maple panels, with hand-carving. This is in new design, with dressing-table and chiffonier effect. All drawers are of deep proof construction. In the living-room is Chesterfield of the very latest kind, covered with material of a very colorful and original effect, the really wonderful frieze material which is used having taken first prize at an international mercantile exposition in Europe. The whole effect is the very last word in luxury furniture.

In this suite plain color is used on spring roll arms and the effect of this room is enhanced by lamp in rich and harmonious shades. The hall is carried in an oak set carved in Jacobean style, comprising console table, mirror, hall chairs and costume and fern stand. In the dining-room is a walnut in Queen Anne style, with chairs upholstered with blue leather seats and a full-sized sideboard and china cabinet. This suite should be seen to be really appreciated.

At the end of the stall is a division devoted to showing a display of chairs made by the firm, which includes handsome slipper chairs, suitable for bedroom or parlor, and also an example of a chair with a semi-circular back covered in pure linen of new design. All the upholstery shown is of remarkably fine quality done in the firm's workshops and has been specially admired by visitors. This fine exhibit was conceived and put on by Mr. A. Lemm, who is in charge.

Messrs. David Spencer's exhibit at the Exhibition is of most interesting display of furniture arranged in a section in light green and arranged as the separate rooms of a house. Only furniture of the medium grade is shown as more likely to appeal to visitors at the fair of moderate means. Every-thing shown is made in the workshops of the firm and includes a smart dining-room suite of colored walnut. The bedroom is in the new style, featuring a single-mirror dressing-table. The Chesterfield suite in the drawing-room is a fine exhibit in useful looking blue moiré. The whole exhibit is on a most handsome blue pile carpet, and there are examples of bedding, delicately made china.

**UNIVERSAL COOLER**  
The Royal Dairy has an ice cream display featuring the Universal Cooler, in the Manufacturers' Building.

**SATIN-GLO**  
The Bapco booth features "Satin-Glo," the wonderful product of this well known local manufacturing concern. It is an attractive display with panels painted in different delicate tints of Satin-Glo, which treatment achieves a finish of delightful smoothness. Among the beautiful colors at this stall are cream, turquoise blue, which two colors are used in the painting of the exhibit. Art shades of Satin-Glo in which fine results are obtained include French grey, shell pink, tan brown, russet brown.

**GILT EDGE FOXES**  
In the grounds of the exhibition is a silver fox exhibit by the Gilt Edge Fox Co., Ltd. of Tenneyon Avenue. There is a fine array of cups won by Gilt Edge Bess and Gilt Edge Prince, who have each won twelve first prizes out of fourteen times entered. These animals have taken first prize as a pair on the three occasions shown. In the same booth Mr. D. M. McIvor, of Finlayson Avenue, has an exhibit of Northern Quebec mink.

**MUSIC BY FLETCHER'S**  
In the Main Building are a number of attractive trade exhibits, and no one can miss the fine dome in the centre, where Fletcher Bros. dispense music to the crowds all the hours the exhibition is open. It is a stately exhibit and the music dispensed is a wonderful example of what has been done in the development of mechanical reproduction of music. The new machines which this firm handles are wonders of expression and tone, and the delicate rendering of classical music is as greatly admired as the popular music enlivens and cheers.

**FREE AIR TRIP**  
The W. H. Malkin Co. has a striking exhibit of Malkin's Best Tea and Coffee, and a free return trip to Vancouver or Seattle by the new airplane is offered in connection with a competition in which every one who ordered a pound of tea or coffee receives a chance.

**ELECTRIC FIREPLACES**  
In the main building the Murphy Electric Co. has an exhibit of electrical goods, including beautiful chandeliers. There is an opulent golden glow that would cheer the dullest room.

**CORRESPONDENCE SCHOOL**  
Interesting are the courses of instruction in all technical and commercial subjects as described by Mr. John Wood, Victoria agent of the International Correspondence School, who has a stall illustrating the many courses prepared by this well-known institution. The work of this school is constantly increasing, and many Victoria people have availed themselves of the instruction given in the papers prepared by experts in every branch.

**MODELING IN BUTTER**  
Who will be the lucky person to win twenty pounds of "Our Own Brand Butter" which is the prize (among others) offered at the exhibit of the Central Creameries, where there are six panels hand modeled in butter depicting butter-making methods in different countries. Those able to guess most correctly the aggregate weight of the butter used will receive prizes. The butter runs into hundreds of pounds, which may be used as a cue to those venturing to guess. Guesses have ranged from forty-five to 900 pounds.

**BUTTERNUT BREAD**  
Messrs. Rennie & Taylor again have an attractive stall at which small samples of the famous Butternut Bread are given away. The stall is bright and attractive in a setting of green and white, with scenic background. In the centre is a showcase filled with a large selection of cakes, cookies, pies and other confections in an artistic and delectable array. Mrs. Popham and Miss Torie Rennie preside at this stall, which is quite one of the most attractive in the Manufacturers' Building. Messrs. Rennie & Taylor's exhibit is always a good one and a feature which is looked for at the annual exhibition.

**MADE BY THE BLIND**  
The examples of work by the blind of British Columbia are seen at the exhibit by the Canadian National Institute for the Blind, presided over by Mrs. Grute. Here are wonderful baskets of all descriptions, flower holders and traps and a large assortment of brooms, all most creditably turned, and labelled and packed in bundles ready for the requirements of modern merchandising, in which the work by those unable to see competes on equal terms.

**THE EASY WASHER**  
Another type of washing machine embracing the vacuum principle is the Easy Washer, shown by E. Taylor, of 718 Yates Street, who is demonstrating this modern method of washing clothes.

**NABOB TEA**  
Nabob tea and coffee has a colorful stall in green and red at the left hand end of the Manufacturers' Building with an attractive display of the well-known products of the firm.

**SOMETHING TO CROW ABOUT**  
A coal and a service to crow about is expressed by the familiar rooster in brilliant feathers at the exhibit of the Seaman Kent Hardwood Flooring Co. in the Manufacturers' Building. This is showing the product of this company, which claims to be the largest maker of hardwood flooring in the British Empire and has been making its proved products in Toronto for twenty-five years. Arranged with matched flooring turned out by the Vancouver Island Hardwood Flooring Co. is seen in sample form.

**BLUE RIBBON TEA**  
Coffee is dispensed at the Blue Ribbon stall, where a competition is staged with prizes nightly and a valuable prize at the end of the week. Mrs. Rondwell is in charge, assisted by the Misses Ruth Hanson, Pearl Phillips and Olive Gardner.

**VICTORIA-MADE COFFEE**  
Messrs. Jamesons also have a fine stall showing their products and featuring this genuine Victoria-made coffee. Tea and other lines, including essences and lemonade crystals are also shown as examples of local manufacture.

**ENTERPRISE RANGES**  
Enterprise ranges are shown by the Victoria agent, Mr. F. Smith, of Broad Street, who has a full line of this well-finished product for all needs and purposes, ranging in price from \$75.00 to \$135. Some intriguing improvements are demonstrated at this stall where there are also some fine brass and iron fireplace furniture, including ornamental coal scuttles, etc. The ranges and stoves of this firm are claimed to give exceptional service.

**FINE LEATHER GOODS**  
Some of the finest goods possible to imagine, in the way of delicately manufactured leather, are to be found at the stall of Mr. James McMartin, dealer in leather goods, of 716 Yates Street. Arranged with a background of buff and walnut paneling are goods really appealing to those loving the best. Very intriguing are the different styles in ensemble sets (consisting of two or three pieces in which the hat box matches suit and dressing case), also a very large assortment of imported handbags of varied and beautiful design. There are picture frames, writing sets, bridge sets, bill folds, cigarette cases, etc. The very latest in traveling equipages are the tour-robies and airparks for those who will travel by air. There are also men's suitcases, club bags and wardrobe and other kinds of trunks.

**MODERN BREAD MAKING**  
Manufacturing of Shelly's 4X bread is shown in a miniature "movie" theatre, which is the background of the Shelly exhibit. The "movies" show the whole process of the manufacture of the daily "staff of life" in these well-known bakeries, and the pictures are explained by interesting subtitles, which describe the scientific methods employed. Music during the performance attracts to this exhibit.

**"IT SWEEPS AT IT CLEAN"**  
The Hoover sweeper exhibit, though small, is artistically presented in a setting of royal blue velvet curtains. The "Hoover" sweeper, for which the Hudson's Bay Company is the Victoria agent, is demonstrated by Mr. H. Groves. "More d.p.m. (dirt per minute)" is the caption displayed.

**AUTOMATIC HEAT**  
As installed in upwards of fifty large and small Victoria houses, in business blocks and hotels, is the Preferred Heat Automatic Oil.

Excursion to Seattle Aug. 30.—Princess Patricia, sailing 9 a.m.

Burner. It is an ingenious invention, simple to understand and work. By means of an electric spark—something like the ignition on a car—the oil is lit in ten seconds and the flames quickly give the required temperature. The temperature can be set at any desired degree and the heat will be shut off as soon as this is reached, to come back again as the temperature is lowered. An ingenious vacuum system makes this possible, a method which gives an even temperature always, as well as conserving fuel. These burners, where installed, are said to give entire satisfaction. Automatic heat can be applied to hot air or water, and heating of domestic water.

**RADIO EXHIBITS**  
In the Women's Building, upstairs, are the exhibits of two radio firms. Messrs. West are showing the new "Molnaw," a fine machine of Canadian manufacture, as well as the Marconi, featuring consoles of which all sets are electric. There are also two examples of radio phonograph combination with records in six and eight inch sizes.

**RADIO-ELECTRIC LIMITED**  
Messrs. L. H. Samson, H. E. Walton-Smith and E. Dyson are to be found at the Marconi stall, demonstrating Marconi and Pads, Radio. Featured here is the "Radio-phonograph," a fine combination radio and phonograph.

**ANTI-VIVISECTION**  
In the Women's Building at the Provincial Exhibition, on the upper floor, is the exhibit of the Canadian Anti-Vivisection Society, showing a dog prepared for experimentation, and a number of interesting pictures and charts together with some others in connection with the campaign against vivisection.

**STOVES AND RANGES**  
A Victoria firm "fifteen years in the range and stove business," is represented by the exhibit of Findlay's ranges, of 715 Pandora Avenue. Here there is a group of well-known "Canada Pride" and McCarty's ranges in a variety of sizes and prices.

**TAKING AWAY HEAT**  
The Frigidaire exhibit, featuring the system of cooling by which heat is taken out rather than cold put in, is in charge of Messrs. H. J. Walsh and J. W. Kenyon, who are demonstrating representative machines from the twenty-four different models made by the company. Frigidaire is provided in a style and for every need and featured in the exhibition in a built-in cabinet, also a water cooler. Frigidaire claims to put heat out "through a brick wall." Frigidaire is an undoubted modern convenience, scientifically tackles the problem of refrigeration and the protection of food.

**MODERN MECHANICAL MUSIC**  
Messrs. Davis & King have a stand in both the Manufacturers' and the Automobile Buildings, from which pleasant music is dispensed all day. They are featuring the Columbia Electric Kolorator, of which fine examples are shown, as well as the famous Mason & Ritch piano. The very up-to-date gramophone music has reproduction wonderfully life-like in tone, and is enjoyed by the many hundreds visiting the buildings.

### HUMAN CANNON BALL THRILLS

Crowds at an amusement palace at Turin, Italy, have been thrilled this season by a human cannon ball fired from a mortar and landing in a net 300 feet distant. Ugo Zaccchini, one of the inventors, was the cannon ball. Dressed in a leather suit, he stood in a metal cylinder which reached above his knees. After he was placed in the mortar a powerful spring was released by electricity, which sent him flying through the air in a semi-circle, 130 feet high. He fell heavily into the middle of the net, rebounded several times, and a few minutes later he bowed his acknowledgments of the tumultuous applause.

### VICTORIA-MADE COFFEE

Messrs. Jamesons also have a fine stall showing their products and featuring this genuine Victoria-made coffee. Tea and other lines, including essences and lemonade crystals are also shown as examples of local manufacture.

### ENTERPRISE RANGES

Enterprise ranges are shown by the Victoria agent, Mr. F. Smith, of Broad Street, who has a full line of this well-finished product for all needs and purposes, ranging in price from \$75.00 to \$135. ## "LADY BETTY"

By JOHN L. CARTER  
Author of "The Cinema Girl," "Peggie the Aeronaut," Etc.

**CHAPTER XX**  
A month went by, and still Elsa le Page remained in daily association with Jimmy. She seemed to be oblivious to the fact that she had herself insisted upon going away. She and she showed not the slightest interest in any of the posts which were offered her. She did not actually refuse them, but invariably her manner when interviewing prospective employers was such that the proceedings were carried no further. Elsa could not help it; the very thought of leaving Jimmy numbered all her faculties; and these shrewd prospective employers instinctively fought shy of one who seemed so "morose," so "stolid."

Jimmy had written to Lady Betty saying that all his efforts to settle near her had been in vain. He had said that she must go away, and that he would be proud to see her. He had said that she must go away, and that he would be proud to see her. He had said that she must go away, and that he would be proud to see her.

Elsa looked up at him. "Because of her—your Lady Betty," she agreed. "But I have thought over it since, and I cannot have you and I can help you in your work, I said to myself, 'I will not go.'"

"But if she wants you to go?" he said diffidently.

Elsa sighed and colored slightly. "Then I must go," she said bravely. "But she can trust me. Does she not?"

Jimmy nodded.

"Still she doesn't quite like it," he said.

Elsa's face showed that she understood. "I know what she feels. I also could not bear it. She has the right; I have not." She sighed again, and relapsed into a silence that proved terribly painful to the anxious Jimmy. At last she sighed once more and a single tear rolled down.

"I will go," she said resignedly.

Jimmy could do nothing. He knew that he had no right to comfort her, even if any words of his could help her at all. But he knew that words could not. Besides he was afraid to speak, lest something that he might say would make her change her mind again.

"I will see you on the boat at Folkestone," he said, stealing himself to follow the thing up. "You would be home again in a very few hours."

Elsa made no attempt to share his mock enthusiasm. She just stared at him like a stricken animal, a world of misery in her great, soft, brown eyes. Then she turned away her head because the tears were beginning to flow, and she wished to save him pain. With sudden resolution she disappeared into her dressing-room, leaving him half-mad with shame and anguish. But something happened to divert Jimmy, for a knock sounded on the door, and in reply to his impatient "come in," there entered a tall, bronzed man whom Jimmy had never seen before.

(To Be Continued)

## Why Not Spend The Afternoon At Cordova Bay

You can go there and back for 50 cents. Buses leave Broughton Street Depot at 1:15 p.m. and 2:30 p.m., returning at 3:45 p.m. Tea Rooms and Bathing Beach to amuse you.

Two men were seated in a railway carriage.

As soon as the train started one got up and opened the window. After a few moments the other shut it. The first man immediately rose and opened it once more.

"What do you think you are playing at?" angrily demanded the man who had shut the window.

"Draughts," said his companion. "Your move."

"How do you get along with your arithmetic, Sam?"

"Well, I don't learned to add the rights all right, but de figners bother me a lot."

Maud: What sort of a bathing cap would go best with this suit?

Marie: Oh, just go bareheaded, dearie, if you want the appropriate thing.

### BEST PICTURE IS SENT BY WOMAN

Mrs. J. H. Grant Wins Envious Award in Photographic Exhibition at Willows Fair

A remarkably clever marine study, distinguished by nicety of focus, by clear yet soft definition of cloud forms and smoke from a passing steamship outlined against the horizon, and by the unusual and pleasing character of the subject, has won for Mrs. J. H. Grant the chief award in the photographic exhibit at the Provincial Exhibition at the Willows. A ticket attached to this picture announces the fact that the judges have pronounced this to be the best picture in the show. Very rarely does the photographer reproduce with such striking results, the effect of sunlight streaming through heavy clouds. This picture has bold contrasts of light and shade, its luminous shafts of sunshine against the billowing outline of cloud also introducing an effective contrast of line. The photograph, incidentally, has also won first prize in Section 81, "Marine Views."

Mrs. Grant has been one of the most successful of the exhibitors in the competitive photographic group. She took first prize in Section 83, "Still Life," with a photograph of a waterlily; in section 80, "Land-scapes Subject," with a picture of a punt beneath some willow trees in a river, and in Section 82, "Portrait or Figure Study," with two pictures, one of a mother and child, the other of two bathing girls. Mrs. J. H. Grant has a very close second with several enviable successes. In the general group (Section 84) she won first prize with a threatening scene and a photograph of a woman and child, and also first prize in the animal study competition with two pictures, one showing two tiny fluffy kittens playing in a basket, the other a deer. Her entries in the still life group were both much noticed, viz., a photograph of the Victoria war memorial, taken at night, and of chrysanthemums.

Two men were seated in a railway carriage.

As soon as the train started one got up and opened the window. After a few moments the other shut it. The first man immediately rose and opened it once more.

"What do you think you are playing at?" angrily demanded the man who had shut the window.

## TOFINO STORE CHANGES HANDS

Messrs. Towler and Mitchell Take Over Well-Known West Coast Business

TOFINO, Aug. 22.—(By Mail).—The large and well-furnished store of the Tofino Trading Company has again changed hands and has been taken over by Messrs. Towler and Mitchell. Mr. Norman Thomas, the retiring proprietor, purchased it from Mr. E. J. Clayton about two years ago.

Mr. E. Towler, the senior of his successors, is a man of considerable experience on the coast, having been manager of Mr. Walter T. Dawley's general store at Clayquot and later on of the Wallace Fisheries Store at Kildonan, a position now occupied by Mr. J. W. Pimlott, formerly of Tofino.

Mr. John Towler, his present partner, has lived on the coast for many years, during which he has been employed as storekeeper at Walter T. Dawley's North Branch store and also at his emporium in Clayquot.

**OCTOGENARIANS OF NANAIMO DIE**

NANAIMO, Aug. 24.—The death of W. H. Philpott occurred at the home of his son at 1:45 yesterday morning, following an illness of five weeks' duration. He is survived by his widow, and son, William Philpott.

When the late Mr. Philpott was seized with his last illness he was eighty-five years of age, and despite his rugged constitution, he failed to rally from the attack, death coming in a peaceful manner when he was surrounded by his relatives yesterday morning.

In the passing of the late Mr. Philpott, Nanaimo loses one of its

best known citizens, and a picturesque resident of the Northwest. Mr. Philpott was born in 1843, at Maidstone, England.

The late Mr. Philpott was a charter member of the Eagles Lodge, No. 15, under whose auspices the funeral will be held on Saturday.

The death occurred Wednesday morning of an old-time resident, in the person of Mrs. Janet Webb, of the late Alderman W. E. Webb, at the residence of her daughter, Mrs. J. E. McKenzie, Hecate Street.

Decayed was born in Edinburgh, Scotland, in 1842, and is survived by three daughters and one son, Mrs. J. E. McKenzie, Nanaimo; Mrs. W. F. Foster, Medicine Hat; (Mrs. Dr.) M. Carter, Victoria; and Mr. W. A. Webb, Vancouver; also twelve grandchildren and five great-grandchildren survive.

The funeral will take place from the residence of her daughter, Mrs. J. E. McKenzie, Hecate Street, on Monday afternoon.

**LOGGERS ARE BUSY AT COWICHAN LAKE**

Operations Started on Claim Below Bridge—Company's Two Weeks' Shutdown Ended

LAKE COWICHAN, Aug. 24.—Messrs. E. Trueman and W. F. Grossing, who commenced logging operations on the V.L. & M. Company claim on the south side of the river below the E. & N. steel bridge. They are working under contract for this company and expect it will be ten months before they have completed their agreement.

A tractor and a gang of men have been working on the railway spur, which is being built in near the E. & N. Railway bridge. So far 25 feet have been completed, and it is expected that this grade will be ready for use in two weeks. The fellaheers have been working for some time. These logs will be taken Chemalunus.

The Hemmingsen Logging Company (Camp 4) has commenced felling again after two weeks' shutdown.

## Vancouver Island News

## Lady Angler Wins Special Prize for Fish

CAMPBELL RIVER, Aug. 24.—Mrs. Tommy Bourne, of Vancouver, who with her husband is spending a few days at Campbell River for the fishing, won a special prize given by the president of the Type Club for the largest fish caught on Tuesday or Wednesday with the rod. Mrs. Bourne landed a beautiful twenty-five-pound specimen. Mrs. Bourne is also a member of the Type Club, gaining that honor last year. She is the daughter of Mr. and Mrs. L. H. Stevens, of Cumberland.

## DURBAN CRICKETERS WIN AT COURTENAY

Score is 146 to 66—L.L. Commander Agnew Proves in Good Batting Form

COURTENAY, Aug. 24.—The cricket match between a Courtenay eleven and a team from H.M.S. Durban on Tuesday afternoon, provided some good cricket. The pitch in the Lewis Park was in excellent condition. Tea was served by the ladies amid the scenic surroundings of the park. The naval players proved too strong for the locals, however, as is indicated by the Durban's score of 146, after dismissing the Courtenay players for a total of 66. Agnew made 61 runs by his individual effort, which was within five of the local total.

The score:

Courtenay

**Barry Entertains**

**Brentwood Audience With Mystifying Art**

BRENTWOOD, Aug. 24.—The world-famed magician, T. Barry, gave a most interesting entertainment in the hall on Thursday evening, performing his tricks with so much skill that the audience was kept breathless.

During an intermission, a record on sportsmanship, by H.R.H. Prince of Wales, was played and accorded great applause.

**SERVICE AT COLWOOD**

Service will be held in St. John's Church, Colwood, on Sunday evening at 7 p.m.

**Picnic at Cumberland**

CUMBERLAND, Aug. 24.—A large number of people attended the annual picnic of the Cumberland Whist Society, which was held at Millard's beach. Ice cream and peanuts were provided for the youngsters and sports for young and old indulged in. It was estimated that upwards of 200 people were in attendance, the picnic becoming more popular year by year.

**LIPSTICK RECORD**

JASPER, Alta., Aug. 24.—Much as she has been chided for her habits by a world that complains that she is either too feminine or not feminine enough, the modern girl has her uses. The derided lipstick has won a place for itself in the mountain fastnesses of Jasper National Park, even among the icy unforgiving peaks of Maligne Lake. Today, when Mr. Marshall Field, of New York, and four others reached the summit of Mount St. Helens, they discovered that there wasn't a pencil in the outfit. For a moment there was consternation. How was the world to know that they had gained the top? Then the modern girl came forward with a bright idea and her lipstick.

Sweet Sixteen—"Mother, I'm tired of looking such a kid—couldn't I have shorter frocks now?"

**Health and Diet Advice**

By DR. FRANK MCCOY

Dr. McCoy's menu suggested for the week beginning Sunday, August 26:

Sunday—Breakfast: Coddled eggs, whole wheat muffins, stewed figs. Lunch: Avocado salad, carrot loaf, lettuce. Dinner: Broiled chicken, asparagus, salad of chopped raw cabbage, celery and beets, ice cream.

Monday—Breakfast: French omelette, small piece of broiled ham, Melba toast, apple sauce. Lunch: Grapes or berries as dessert. Dinner: Leg of mutton, baked squash, Melba toast, mushrooms en casserole, baked ground beefs, salad of sliced celery, cooked string beans and parsley, peach whip.

Tuesday—Breakfast: Cottage cheese, fresh peaches. Lunch: Corned beef and cabbage, baked string beans, shredded carrots and beets in gelatin, glass of sweet milk. Dinner: Roast beef, zucchini, green peas, celery and ripe olives, prairie whip.

Wednesday—Breakfast: "Eggs and tomatoes on Melba toast. Lunch: Cooked oysters, baked plant, cucumbers. Dinner: Fish loaf, spinach, buttered beets, salad of sliced tomatoes with chopped parsley, nut butter, and a sprinkling of chopped parsley over each egg.

Thursday—Breakfast: Poached eggs, toasted Shredded Wheat, fruit, stewed raisins. Lunch: Applesauce, corned beef, baked string beans, pork, cooked greens, mashed turnips, salad of chopped raw spinach and celery, apricot whip.

Correspondents wishing to communicate with Dr. McCoy are advised that his address is Builders Exchange Building, Los Angeles, California, U.S.A.

## AMUSEMENTS TO BE PROVIDED

Numerous Concessions to Be Arranged for at Comox Fall Fair Next Month

COURTENAY, Aug. 24.—It is quite evident that the Comox Fall Fair, to be held here on September 12, will be marked by more amusement features than in previous years. At a meeting in the secretary's office, on Wednesday night, on the suggestion of Mayor McKenna, it was decided to run the concessions for the benefit of the association and to pay the operators on a percentage basis. The fair is to be supervised by Mr. W. J. Higgs, an experienced hand at the show game, is in charge of the amusement concessions, of which a good number have already been arranged.

Besides some eight different horse races and other equestrian events, including a race for Shetland ponies, the special attractions will include a milking competition, for which the association is offering \$10 for first prize and \$5 for second. This will be under the supervision of Mr. John Pritchard and Mr. T. J. M. Clarke. The city will pull against the farmers in a sudden death tug-of-war, the respective teams of six a side being under Messrs. J. W. MacKenzie and W. A. Urquhart. It is hoped that Premier Tolmie, who is performing the official opening ceremony in the afternoon, will be able to arrive in time for luncheon on the grounds.

There is no doubt that these additional attractions, together with the Scottish dancing competition for the Lieutenant-Governor's medal, under the direction of Messrs. Walter Brown, J. W. Stalker and Mrs. Moore, the merry-go-round, loaned by the Canadian Collieries; coconut shies; "house-houses," baby doll shies; Aunt Sally, etc., "all the fun of the fair" will be strongly in evidence at this year's event.

**Langford Children Enjoy Afternoon At Crystal Garden**

LANGFORD, Aug. 24.—The children of the choir of St. Matthew's Church had a delightful afternoon at the Crystal Garden in Victoria on Tuesday afternoon. The Women's Guild and the Women's Institute made the project possible by financing it, and the children were taken by the kindness of Rev. H. B. Allen, Mr. Cooney and Mr. F. Smedley. Before coming home they were treated to ice cream, and at Langford they were given a supper at the Women's Institute Hall, served by Mrs. H. Simpson and Mrs. J. L. Brown, the choir leaders. Mr. H. Simpson took the mothers to the hall for the supper.

**Metochosin Meeting Will Discuss Plan For Enlarging Hall**

METCHOSIN, Aug. 24.—A public meeting will be held in the Metochosin Hall on Monday evening at 8 o'clock. The subject under discussion will be the enlarging of the hall, and all residents are urged to be present, as the building committee will lay its plans before the meeting, it being proposed to start the work in the near future.

**Picnic at Cumberland**

CUMBERLAND, Aug. 24.—A large number of people attended the annual picnic of the Cumberland Whist Society, which was held at Millard's beach. Ice cream and peanuts were provided for the youngsters and sports for young and old indulged in. It was estimated that upwards of 200 people were in attendance, the picnic becoming more popular year by year.

**LIPSTICK RECORD**

## At the Playhouses

AMUSEMENTS

Capitol—Estelle Taylor and Roland Drew in "Lady Raffles."

Coliseum—"Dawn," starring Sybil Thorndike.

Columbia—Tom Mix in "Painted Post."

Dominion—"Drums of Love," starring Mary Philbin.

Playhouse—"The Whip Woman," featuring Estelle Taylor.

Variety—House Peters in "Prisoners of the Storm."

**DOMINION** Here is a bit of war history. David Lloyd George said to D. W. Griffith at 10 Downing Street, London, in April, 1917: "You will do this to aid humanity. The idea back of your splendid story is a message to civilization that its fight will not be in vain. Let me be the first to predict that when you have completed your labors you will have produced a masterpiece which will carry a message around the world. God speed you in your great work and grant that you may accomplish your desires." The remarkable film spectacle in question, "Hearts of the World," had its premiere in Los Angeles, March 12, 1918. The latest production of the famous producer is "Drums of Love," now showing at the Dominion Theatre.

**CAPITOL** Estelle Taylor never fired a pistol in her life until she was required by the action of Columbia's "Lady Raffles" to discharge a revolver. It was impossible to double this scene and so Miss Taylor decided to do a little target practicing before she made her debut as a marksman before the camera. "Lady Raffles," a clever drama of society life, full of surprises and suspense, is showing for the last times today at the Capitol Theatre. In support of Miss Taylor are such prominent players as Roland Drew, Lilian Tashman, Ernest Hilliard, Winifred Landis and Stanton Heck.

**PLAYHOUSE** There are three principal characters in First National's "The Whip Woman" showing for the last time today at the Playhouse Theatre, Estelle Taylor, Antonio Moreno and Lowell Sherman. The fourth character is just as powerful, though, inanimate, according to Lilian Dwan, who supervised the picture. It is the whip itself, an oxbow twenty feet long, which Estelle Taylor uses not only on cattle, but on the heads of unwelcome suitors. "The whip is a spiritual force in the story, and practically all the action revolves around it," says Dwan.

**VARIETY** House Peters, the star of "Prisoners of the Storm," the Universal production showing for the last times today at the Variety Theatre, has lived in almost every civilized country in the world and a great many uncivilized ones. His father was in the British consular service, and his work took him to English possessions all over the world. The film star, as a boy, lived in South Africa, Australia, the South Seas, India and other places, and received a nomadic education in these several places.

**COLUMBIA** Trapped in a gloomy, windowless cell at Fort Tom Mix, starred in Fox Films "Painted Post," escapes in a whirlwind manner that would make the late Houdini blush with shame. The story of "Painted Post" deals with the conflict between Mix, as sheriff of Painted Post, and a gang of outlaws led by Ben Ritten, the scourge of the sage brush country. It will have its final showing at the Columbia Theatre today. The supporting cast includes Natalie Kingston, Philo McCullough, Al St. John and Fred Gamble. Gene Forde directed the production from an original story by Harry Sinclair Drago.

**COLISEUM** Owing to many re-thoughts, arrangements have been made by the management of the Coliseum Theatre to prolong the run of "Dawn" for another week. There will be performances daily at 2:30 and 8:30. This picture has created a profound sensation here as it has done in every province in Canada and in every town where it has been shown. It is as accurate in historical detail as it is possible for such a picture to be, for one must consider that the curtain of war hid Edith Cavell and her activities in Brussels after the city fell, and that her trial by court-martial and her execution were conducted with

virtually no civilian present. In fact, the death decree was not promulgated until after the execution—and for obvious purposes those who took part in this grim affair are not any too anxious to talk. The film has been presented here this week under the auspices of Canadian Educational Films, Ltd. Its showing is preceded by a most unusual and effective prologue. The events flashed on the silver sheet are heightened by appropriate music supplied by an augmented orchestra.

**Captain Jervis At Playhouse on Monday Next**

Captain Jervis goes fishing—fifty days of strenuous work since his arrival here in Victoria, B.C., and not a day of rest. So yesterday, accompanied by his friend and super-chief-assistant, Mr. Peter Veniero, he went fishing. On Monday, August 27, at the Playhouse, Captain Jervis will appear on the stage to recruit among his large number of candidates a few Gloria Swanson, Barrymore, Greta Garbo or Pola Negri. Captain Jervis says that "Stars are not born but created through the hands of an efficient producer."

**RECTOR DISAPPEARS**

LONDON, Aug. 24.—Will the solution of the extraordinary disappearance of Rev. Franklin Hutchinson, rector of Dodinghurst, Essex, come from Canada? From July 25 nothing has been heard of the rector, except that the Canadian Pacific Ocean Service have definitely confirmed, only today, that a passenger described as "Franklin Hutchinson" sailed on August 4 on the Empress of Scotland from Cherbourg for Canada. Police visited the steamer at Southampton docks today and their inquiries established the fact that he sailed as

## FIRE GAINS ON BRITISH SHIP

SS. PORT NAPIER IN BAD WAY SEVENTY-FIVE MILES OFF PAGO PAGO

Vessel's Cargo Said to Contain Extremely Inflammable Paints and Oils

PAGO PAGO, Samoa, Aug. 24.—The Port Napier, 8,500-ton British steamer, was on fire, seventy-five miles south of this port, said radio distress calls received here late today.

With the fire gaining, the Port Napier was proceeding at thirteen knots toward Pago Pago, which she expected to reach about 6 p.m. The fire was on the starboard side of the No. 4 deck. The Port Napier's cargo is said to contain oils, paints and cement.

The United States naval station here prepared to receive the vessel and lend aid. The station ship Ontario was recalled, full speed being ordered by the commandant. The naval radio station kept in continuous communication with the burning steamer.

The Port Napier left London for Suva on July 21. The vessel was built in 1912. It is a twin-screw steamer owned by the Commonwealth & Dominion Co. of London.

## Marine Notes

After loading 210 tons of pithard oil at Ogdon Point docks, Ss. Chief Skidgate sailed for Portland at 4 o'clock yesterday afternoon.

The Furness-Pacific liner Pacific President is due at Rutherford from the United Kingdom at 8 o'clock this morning, according to King Brothers. The vessel may have to wait until the Empress of Canada clears before she can dock.

## SHIDZUOKA MARU HAS MUCH SILK

N.Y.K. Vessel Brings 5,600 Bales, Largest Shipment on Japanese-Owned Ships

With 5,600 bales of raw silk, the largest amount brought from Japan on a Japanese vessel this year, the Nippon Yusen Kaisha liner Shidzuoka Maru, Captain S. Takada, arrived from Yokohama at 7:40 o'clock last evening.

For Victoria there were fifteen third class passengers, forty bags of mail, ten bags of air mail and thirty-nine tons of raw silk, earthenware, porcelain, toys and tea. The mail plane flew to Seattle with the mail as the night was comparatively clear.

For Seattle the vessel had the heavy silk cargo to be shipped to Hoboken aboard two ten-car Great Northern silk specials, seventeen third class passengers, 220 bags of mail and 1,300 tons of general cargo. Captain Takada reported bad weather for two days after leaving Yokohama. Two days off Vancouver Island the vessel encountered the heaviest fog that the captain had ever run through on the Pacific. The ship was slowed down and did not attain maximum speed until Sherringham Point was sighted.

## WEST COAST

Effective June 27, 1928, the Princess Maquinna will leave Victoria for Esquimalt and will depart at 11 p.m. every Wednesday.

Effective June 30, 1928, the Princess Mary will leave Victoria for Port Alice and will depart at 11 p.m. every Saturday.

## Ss. President Grant

With a large passenger list, the American Mail liner President Grant, Captain M. M. Jensen, will sail from Rutherford piers this evening at 8 o'clock for China, Japan and the Philippines.

## BUCHANAN PARTY HERE YESTERDAY

Detroit Philanthropist Returning to Detroit After Annual Pilgrimage

Forty-two boys and nineteen adults, in charge of Mr. George E. Buchanan, Detroit philanthropist, arrived here yesterday afternoon from Vancouver, where they terminated their cruise to Alaska aboard Ss. Princess Louise.

The party was given a rousing send-off by the Vancouver National Juvenile Band. The boys left here for Seattle en route to Detroit at 4:30.

Describing the financial arrangements of the annual tour, Mr. Buchanan said:

"A boy must first get the consent of his parents and must tell them the idea of advancing one-third the cost of the tour. If this is impossible, I take it upon myself to show the boy how he can earn the money. In any event, he has to earn the extra one-third himself. He cannot afford to advance it, it will do him no harm and it will just work much harder."

"My share I explain thus: You are not indebted to me for the amount, you are indebted to some other boy who paid his share. If you do not return the money you will cheat another boy out of the trip you expect to enjoy. I don't expect you to repay me until you are older, nor will I ever force a collection. This is to be an honor debt between you and me. If you never pay I'll not be hurt. It will hurt just two persons, yourself and another boy."

"I explain to them that I intend carrying on this plan as long as I live and that I will provide a fund that will carry it along indefinitely. I tell them that I would rather do this than build a monument."

While in Victoria the boys were taken on sightseeing drives about the Marine Drive, and several of them enjoyed swims in the big pool at the Crystal Garden.

## MR. A. P. CHAPMAN BREAKS HUNDRED AT UPLANDS LINKS

After eighteen months of mangle

welding in an attempt to knock the three-figure mark for a row, Mr. A. P. Chapman, Jr., general agent for the Chicago, Milwaukee, St. Paul & Pacific Railway here, finally gained his objective. This was done in the presence of Mr. Max Leiser and Mr. Dan Evans, Thursday, when Mr. Chapman drove the ball around the Uplands Golf Club for a total of ninety-eight. He was out in fifty-one and home in forty-seven. His next objective is to better ninety.

## NO TRACE FOUND OF PACIFIC ROCK

Naval Supply Ship Medusa Steams 1,600 Square Miles on Useless Quest

SAN FRANCISCO, Aug. 24.—The navy supply ship Medusa, sent out recently to investigate the appearance of a rock forty miles west of San Nicolas Island, returned to San Pedro and reported that none such could be found.

The rock, reported by Captain Nicholson of the steamer Radnor, from Honolulu, Los Angeles, would have been directly in the route of steamers from Hawaii for Los Angeles. As it was uncharted it would have proved a menace to navigation.

Captain Nicholson sent in a radio on August 14 to the Navy Hydrographic Department telling of sighting the rock. On arrival in Los Angeles he was interviewed and his report so impressed the authorities that Admiral Phelps, commandant of the fleet base force at San Pedro, sent the Medusa out to investigate.

The Medusa visited the location named and covered 1,600 square miles of surface without sighting any such rock as that reported.

The new Turkish government has forbidden the ancient Anatolian custom of male guests beating the bridegroom, evidently preferring to let marriage take its course.

## Arraigned for Murder

WOODSTOCK, Ont., Aug. 24.—Robert John Childs, twenty, was formally arraigned in police court today on a charge of murdering Gertrude Velland, who died from the effects of a choker taken in an alleged suicide pact between the two. Childs was remanded in jail until Monday, when the preliminary hearing will take place.

corn, it can still be fed at a profit and there is a big demand from the industries. The new crop prospects, outside of fair-sized areas in Ne-

braska, Iowa and South Dakota, are splendid and a 3,000,000 crop or more appears assured, barring frosts, which could still damage the crop severely. However, as in wheat, prices are low for the new crop deliveries, and we still probably go into

Oats. Have tightened up as it became apparent that low prices had checked country deliveries, while there has been an excellent demand for both domestic and export account. The market scored a fair advance on short covering and moderate commission house buying.

**New York Stock**

## Letter

Roebuck and Chrysler among the features in this respect. Also new high for the year were made by Warner Brothers' issues, Americana, Can. Allied Chemical, Anaconda. The twin market leaders, Steel common and General Motors, exhibited good absorptive and rallying powers. Coppers followed the course of Anaconda and gave an excellent account of themselves. Independent miners were prominent.

the advance and the heavy realization that followed the renewal rate of 10 per cent was well taken. A feature of the oil section was the display of strength by Atlantic Refining in response to short covering, and in the late afternoon oil shares generally responded to an announcement of an advance of one cent a gallon in gasoline prices by Standard of Ohio according to a dispatch from Toledo.

President Campbell, of Youngstown Sheet and Tube, by his remarks that incoming business was at least 10 per cent better than expected and the advance of fifty cents a ton in Chicago were helpful influences in shaping sentiment with respect to Fall business. The market is now reflecting the increased demand for stocks in outside circles. Steels, rails, coppers and alloys may be more prominent in the

## JUST LIKE A MAN

Among the strange risks which have been covered in recent years by insurance at Lloyd's are a fiction writer against the loss of imagination, a busy man against baldness, an actress against the loss of her legs, and a timid man against a threatened revolution.

Irish Priest addressing damaged invalid: "I'm going to pray that you may forgive Casey for having thrown that brick at you." O'Leary: "Mebbe yer fliv'ence 'ud be saving 'tween if y'd jist wait 'till Oi get well, and thin pray for Casey."
